**Mental Health for US**

NAMI is affiliated with Mental Health for US, a national nonpartisan educational initiative focused on elevating mental health and addiction in national policy. Mental Health for US published candidate questionnaires from the presidential candidates. You can read their answers here.

**#Vote4MentalHealth State Legislative Candidate Questionnaires**

In mid-February, NAMI Texas sent out a six-question questionnaire on mental health policy to every candidate running a contested state legislative race. This was intended to introduce candidates to our key mental health priorities and help you gain insight on their perspectives around mental health. **NAMI Texas does not endorse or support any candidates or parties, and the inclusion or exclusion of a candidate’s answers does not indicate a position on the candidate by NAMI Texas. Inclusion in this guide does not indicate that NAMI Texas endorses any candidate’s positions provided in the questionnaire.**
